**INTERGOVERNMENTAL AGREEMENT NO. 100504
BETWEEN
CITY OF PHOENIX
AND
DAISY MOUNTAIN FIRE DISTRICT
FOR SHARING OF TELECOMMUNICATIONS FACILITIES**

This Intergovernmental Telecommunications Facilities Sharing Agreement, (hereinafter called "AGREEMENT"), is made and entered into this 1st day of March, 2002 (the "Effective Date"), by and between the City of Phoenix, a municipal corporation duly organized and existing under the laws of the State of Arizona, located at 200 W. Washington Street, Phoenix, Arizona, (hereinafter called "PHOENIX"), and the Daisy Mountain Fire District. The parties are sometimes referred to jointly herein as "AGENCIES" and individually as "AGENCY."

RECITALS:

- A. PHOENIX has the power to execute intergovernmental agreements pursuant to Chapter 2, Section 2(i) of the Phoenix City Charter.
- B. PHOENIX and DAISY MOUNTAIN FIRE DISTRICT desire to share telecommunications facilities owned by each AGENCY under the conditions set forth in this AGREEMENT.
- C. PHOENIX and DAISY MOUNTAIN FIRE DISTRICT are agreeable to permitting such use under the terms and conditions set forth in this AGREEMENT.
- D. Potential electronic sites are limited, and in order to avoid a proliferation of site developments by a number of users, it is in the public interest for both AGENCIES to share those facilities that serve the common good.

AGREEMENT:

IT IS HEREBY AGREED, by and between the parties as follows:

1. Facilities Reciprocal Use. The AGENCIES agree to enter into Site-Specific Supplemental Agreements to share facilities owned by and/or operated by the other. Subject to paragraph No. 6, the AGENCIES each agree to allow the other AGENCY to use its telecommunications facilities, wherever located, upon request of the other AGENCY and without a usage fee, except where the requested usage would cause substantial interference with the telecommunications operations or service of the AGENCY owning the facility, or where prohibited by this or other agreements.
2. Site-Specific Supplemental Agreement. Whenever an AGENCY desires to share telecommunications facilities owned by another AGENCY, such AGENCY shall give the other written notification specifying the site and the character of the equipment, which the requesting AGENCY desires to install at the site. If the other AGENCY accepts the request,

the AGENCIES shall then enter into a Site-Specific Supplemental Agreement which shall set forth all relevant terms and conditions with respect to the site. Each of these Site-Specific Supplemental Agreements shall make reference to this AGREEMENT and become supplements to this AGREEMENT. The AGENCIES will cooperate with each other in obtaining any necessary consents or rights-of-way should the underlying ownership to the site be in a person other than one of the AGENCIES.

3. Consulting Fees. Any consulting fees incurred shall be paid by the AGENCY employing the consultant.
4. Frequency Protection. The responsibility for resolving interference problems shall be specified in the Site-Specific Supplement Agreement.
5. Use Approval Procedure. Reciprocal use by one AGENCY of another AGENCY'S telecommunications facilities shall be subject to the following conditions:
 - a. The AGENCY requesting the use of the facility shall submit a site installation plan to the owner's telecommunications section, and obtain written approval from that section prior to installation.
 - b. The AGENCY requesting use of the facility shall bear the cost of purchasing, installing and maintaining the equipment necessary to complete the installation. Such AGENCY shall establish and maintain a budget according to its own rules and regulations.
 - c. The host AGENCY (of the facility) shall take reasonable precautions to protect the other AGENCY'S equipment located at the facility, but shall not be responsible for damage to, or loss of, such equipment whether by fire, theft or otherwise unless caused by negligence of the owner of the facility.
6. Reciprocal Use, Rights, and Obligations.
 - a. Each AGENCY shall have its transmitter frequencies examined by the telecommunications manager for the facility where the installation is to take place to detect any potential cause of interference at the telecommunications site. Transmitters shall employ isolators, circulators, resonant cavities and other devices to reduce interference as the state-of-the-art and good engineering practices dictate.
 - b. Each AGENCY shall be responsible for obtaining and maintaining any licenses required by the Federal Communications Commission for that AGENCY'S telecommunication equipment.
